KEEPING UP WITH THE LITERATURE

Presented by: John C. Simoneaux, Ph.D.
OBJECTIVES

- List useful resources available online and otherwise to stay abreast of the professional literature
- Critique and compare resources relative to their recency, scientific precision, and ease of use
- Prepare a practice plan to ensure your ethical obligation to stay current is satisfied
Since 1932, Annual Reviews has offered comprehensive, timely collections of critical reviews written by leading scientists. Annual Reviews volumes are published each year for 46 focused disciplines within the Biomedical, Life, Physical, and Social Sciences including Economics.

Each year, Annual Reviews critically reviews the most significant primary research literature to guide researchers to the principal contributions of their field and help them keep up to date in their area of research. Each article is its own search engine, providing a gateway to the essential primary research literature referenced within each topic.

Online Access is included with personal print subscriptions. Institutions may purchase online or print access to single volumes.
ANNUAL REVIEW

- Clinical Psychology
- Genetics
- Psychology
- Law and Social Science
- Medicine
- Neuroscience
- Organizational Psychology and Organization Behavior
- Pathology: Mechanisms of Disease
- Pharmacology and Toxicology
- Physiology
- Sociology
- Statistics and its Applications
ANNUAL REVIEW

- Anthropology, vol 43 (oct), 0084-6570 / 978-0-8243-1943-4 - $90
- Biochemistry, vol 83 (june), 0066-4154 / 978-0-8243-0883-4 - $101
- Biomedical Engineering, vol 16 (july), 1523-9829 / 978-0-8243-3516-8 - $90
- Clinical Psychology, vol 10 (mar), 1548-5943 / 978-0-8243-3910-4 - $90
- Economics, vol 6 (aug), 1941-1383 / 978-0-8243-4606-5 - $90
- Genetics, vol 48 (nov), 0066-4197 / 978-0-8243-1248-0 - $96
- Genomics and Human Genetics, 1527-8204 / 978-0-8243-3715-5 - $96
- Immunology, vol 32 (mar), 0732-0582 / 978-0-8243-3032-3 - $101
- Law and Social Science, vol 10 (nov), 1550-3585 / 978-0-8243-4110-7 - $90
ANNUAL REVIEW

- Medicine, vol 65 (jan), 0066-4219 / 978-0-8243-0565-9 - $96
- Nutrition, vol 34 (july), 0199-9885 / 978-0-8243-2834-4 - $90
- Organizational Psychology and Organizational Behavior - $90
- Pathology: Mechanisms of Disease, vol 9 (jan) - $63
- Pharmacology and Toxicology, vol 54 (jan) - $96
- Physiology, vol 76 (feb), 0066-4278 / 978-0-8243-0376-1 - $101
- Political Science, vol 17 (may), 1094-2939 / 978-0-8243-3317-1 - $90
- Psychology, vol 65 (jan), 0066-4308 / 978-0-8243-0265-8 - $90
- Public Health, vol 35 (mar), 0163-7525 / 978-0-8243-2735-4 - $90
- Sociology, vol 40 (july), 0360-0572 / 978-0-8243-2240-3 - $90
- Statistics and Its Application, vol 1 (jan) - $90
For more than five decades, Audio-Digest has provided physicians and other healthcare professionals throughout the country (and the world) timely recordings of the best talks on significant topics in their specialties, as presented at the latest medical meetings and conferences. With each audio program, you also receive valuable written summaries, educational objectives, suggested reading, and tests/evaluations that can be used to obtain CME credit/CE contact hours.
Audio Digest Psychology offers 24 programs per year for $449.89

Individual program are $24.99 (digital media), $27.00 (audio CD)

Receive 2 hours of CE credit per program

Join today and receive a $1000 Apple® Gift Card. And gain unfettered access to over 1,300 AMA PRA Category 1 Credit™ programs, wherever you need them, at any time in the next two years. $1,998.00
Audio Digest – Recent Programs

- An inside view of women who love lifers and death row inmates
- Brain functioning/The affordable care act
- Compassionate care and spiritually transformative experiences
- Autism/Depression in adolescents
- Substance abuse/Understanding addiction
- Cognitive Behavioral Therapy/Neuropsychologic Assessment
- Malpractice in Psychotherapy
PsycINFO

PsycINFO® is an expansive abstracting and indexing database with more than 3 million records devoted to peer-reviewed literature in the behavioral sciences and mental health, making it an ideal discovery and linking tool for scholarly research in a host of disciplines.
PsycINFO

- More than 3.6 million records, covering psychology back to its underpinnings in the 17th Century
- Records for peer-reviewed journals, books, and dissertations
- Professional coverage beyond psychology to include related disciplines such as medicine, law, social work, neuroscience, business, nursing, forensics, engineering, and more
High-quality Records

- Meticulously indexed by subject experts at APA
- Extensive pre-release quality assurance and post-release record monitoring ensures highly relevant and accurate results
- Immediate coverage of correction and retraction notices indexed and cross-referenced to original record
High-quality Records

- Meticulously indexed by subject experts at APA
- Extensive pre-release quality assurance and post-release record monitoring ensures highly relevant and accurate results
- Immediate coverage of correction and retraction notices indexed and cross-referenced to original record
Authoritative Publications

- Each publication indexed in PsycINFO has been carefully selected by a team of experts for relevance
- Direction advised by esteemed scholars, scientists, and librarians within APA's membership and the library community
Fully Integrated Linking Tools

- Direct links to available full-text journal articles, books, and book chapters from provided DOIs
- Links to other works by the same author
- Cited By links to track the genealogy of a body of work
Other Important Features

- More than 57 million cited references, including almost 3 million from the period 1920 to 1999
- Grant and sponsorship data
- Tests and measures field to help locate specific tests
- Indexing for "first posting" records yields access to earliest publication of journal articles
- Publication history to track submission, acceptance, and publication dates
Pricing

- Gold -- $149 (APA member) -- $499 (Non-Member)
- Gold Plus -- $199 (APA Member)
- Platinum -- $299 (APA Member)
PsycSCAN

APA offers 8 electronic-only PsycSCANs, subsets of PsycINFO® in specific topic areas. These current awareness tools make it easy to search for content in your specific content area. PsycSCANs are not available to institutions. They are available only in electronic format.
PsycSCAN – Applied Psychology

- Accident and safety
- Consumer and marketing
- Environmental
- Forensic
- Human factors and ergonomics

An automatic mailing list server developed by Eric Thomas for BITNET in 1986. When e-mail is addressed to a LISTSERV mailing list, it is automatically broadcast to everyone on the list. The result is similar to a newsgroup or forum, except that the messages are transmitted as e-mail and are therefore available only to individuals on the list.
Lunchtime Series: These live monthly hour long teleconferences are exclusively for NASW members. The Lunchtime Series highlights the latest social work issues being addressed by NASW. Besides a live teleconference, members can access the transcripts and audio/pod cast component of the teleconference 24/7 through NASW’s Web site. Members may also earn continuing education units (CEUs) upon successful completion of an online test following each teleconference.
Webinars: NASW

Lunchtime Series:

You must register for the Lunchtime Series in order to participate in the live teleconference and/or earn CEU(s)

- Select the button to register for an upcoming teleconference
- Login using your NASW Username and Password
- Enter the requested information and click the login button
- The selection will take you to teleconference registration page
- Select Complete Registration
- Print the dial-in instructions and confirmation codes (Be sure to download all available resources)
Webinars: NASW

Lunchtime Series: -- Courses Examples

- What Clinical Social Workers Should Know About the DSM-5
- Enhancing Palliative Care: Introduction to the National Consensus Project’s Clinical Practice Guidelines
- The Power of Linking Social Work Practice and Policy
- New Domestic Violence Policies: Implications for Social Work Practice
- Emerging Issues in Adolescent Health: Implications for Clinical Social Work Practice
- Risky Business: Understanding Risk Management and Malpractice Protection
Webinars for Counselors

Short for *Web log*, a blog is a Web page that serves as a publicly accessible personal journal for an individual. Typically updated daily, blogs often reflect the personality of the author.
BLOGS

General:

- **PsyBlog**: The blog you’re reading right now—you should subscribe to PsyBlog here.
- **MindHacks**: links to psychological goodness from all around the web.
- (Now inactive) **Cognitive Daily**: in-depth coverage of cognitive psychology research.
- **The Last Psychiatrist**: thoughtful, iconoclastic perspective from a practising psychiatrist.
General:

- Channel N: brain and behaviour videos.
- BPS Research Digest: accessibly covers new psychological research.
- (Now inactive) Encephalon: neuroscience/psychology ‘blog carnival’.
- Neurophilosophy: about molecules, minds and everything inbetween.
- Neuromarketing: brain science in marketing and sales.
**BLOGS**

**General:**

- **PsychCentral Blog**: team blog, focusing more on clinical topics: depression, anxiety etc..
- **The Situationist**: links to articles on social psychology.
- **We’re Only Human**: journalist Wray Herbert writes about the quirks of human nature.
- **Psychology Today Blogs**: ‘essential reads’ from Psychology Today’s stable of bloggers.
- **Neuronarrative**: psychology with a public health slant.
- **Research Blogging**: posts collected from variety of blogs but *all* peer-reviewed research.
In the News: forensic psychologist Karen Franklin on the intersection between psychology and law.

The Mouse Trap: musings on cognitive and developmental psychology.

(Now inactive) The Trouble with Spikol: mental health policy issues discussed by writer Liz Spikol.

Bad Science: Covers more than psychology but Dr Ben Goldacre is such good value we’ll let him off.
BLOGS

More academic:

- Dr Petra Boynton: sex educator and academic exposes media misrepresentations of science.
- Babel’s Dawn: exploring the origins of language.
- The Neurocritic: anonymous, critical, mischievous.
- Advances in the History of Psychology: it’s all in the title.
- Deric Bounds’ MindBlog: biological view of the brain from an Emeritus Professor.
Condition specific/patient perspective blogs:

- **Panic!**: writer who’s been dealing with panic disorder for 20 years.
- (Now inactive) **The Tangled Neuron**: layperson reports on memory loss, Alzheimer’s & dementia.
- **Beyond Blue**: author provides guidance on how to get through depression.
- (Now inactive) **Walking the Black Dog**: one person’s battle with ‘the black dog’.
Condition specific/patient perspective blogs:

- (Now inactive) Postpartum Progress: advocate for women, Katherine Stone, on postpartum mental health problems.
- The Secret Life of a Manic Depressive: Seaneen is a twenty-three year old Irish girl writing about her life.
- (Now inactive) Autism Blog: autism research described by Lisa Jo Rudy, who has first-hand experience of the condition.
- The Reality of Anxiety: Aimee, who suffers from social anxiety, promoting understanding of the condition.
General Psychology and Neuroscience:

- Brain Blogger (group blog)
- Mind Hacks: Neuroscience and Psychology (group blog)
- PsyBlog (by Jeremy Dean)
- Research Blogging (aggregated blog postings)
- Research Digest Blog (British Psychological Society)
BLOGS

General Psychology and Neuroscience:

- The Frontal Cortex (by Jonah Lehrer)
- The Scientific Fundamentalist (by Satoshi Kanazawa)
- We're Only Human (by Wray Herbert)
- What Is Psychology? (group blog)
- World of Psychology (from PsychCentral)
General Psychology and Neuroscience:

- The Natural Unconscious (by John Bargh)
- The Personality Analyst (by John Mayer)
- The Situationist (group blog)
- The Social Self (by Allen McConnell)
- Ulterior Motives: How Goals Drive Behavior (by Art Markman)
iTunes U is a section of the iTunes Store where users can download free educational course content from many colleges and universities, non-profit educational institutions, and K-12 organizations.

The content, which includes course lectures, lab demos, sports items, and campus tours, comes as audio and video files. The downloads are free. Content from 300 colleges and universities worldwide is available.
To use the service, a user is required to download and install iTunes on an Internet-connected PC and then visit the iTunes Store. The user may also visit the relevant subdomain of a participating university, like From there, her or she can go directly to the institution's homepage on iTunes U. The visitor can then select entire courses or choose individual video or audio recordings, ebooks or pdf’s. The material can then either be watched directly on the PC or synchronized onto a portable media player for mobile learning. Educators can use the service to upload coursework and lectures for easy distribution on a platform that students are generally already competent navigating.
Cross Examining Experts in the Behavioral Sciences provides step-by-step guidance on how to refute behavioral scientists' conjecture and speculation to ensure favorable rulings on Daubert, Kuhmo Tire and Frye standards. This set integrates hundreds of questioning strategies and actual questions to help you save time preparing your cases. It helps you keep pace with the fastest growing area of expert witness work with:

- Demonstrations on how to examine and challenge the expertise of mental health experts and the use of psychological tests
- Examinations of both the scientific research and the legal aspects behind a mental health expert's testimony
Forensic Resources

Cross Examining Experts -- $322.00

Topics covered include:

- Types of mental health experts
- The gap between science and practice
- Challenging clinical judgment
- Challenging claims of professional experience
Topics covered include:

- Child custody evaluations and appropriate standards of psychological practice
- Predicting future violence
- Psychotherapy and appropriate standards of practice
- Psychological testing/projective tests
- Psychological testing/objective tests
- Challenging diagnostic classification
This important handbook demystifies the law for the social worker. As with the previous edition, the fourth edition uses the family life cycle as an organizing principle that connects legal procedures to the life of the family as it moves through marriage, parenthood, normal events and specific crises, along the continuum from birth to old age. It reviews basic legal concepts, describes the court structure, and examines trial procedures and rules of evidence as they affect social workers and their clients. New chapters address consent, capacity, and substitute decision-makers; mental health and the law; financial safety nets; and immigration.
Forensic Resources

Psychiatric and Psychological Evidence, 3d

Features
- Introduction to psychology and psychiatric field, and guidance on research
- Thorough discussion of rules of evidence
- Tips for applying evidence to criminal proceedings
- Analysis of legal issues involving children
- Discussion of competence proceedings
- Easy access to information, including Westlaw search references
Psychological & Scientific Evidence in Criminal Trials, 2013 ed. -- $441.00

*Psychological & Scientific Evidence in Criminal Trials* provides a complete and detailed analysis of its subject matter through all stages of a criminal trial. The text presents a review of states' decisions on psychological and scientific evidence and includes pointers for defense attorneys and prosecutors on:

- Preserving records
- Challenging evidence
- Handling experts
- Avoiding pitfalls
Coping with Psychiatric and Psychological Testimony
-- Sixth Edition -- David Faust -- $225.00

This unique book documents the deficiencies of psychiatric and psychological evidence, and demonstrates how to cross-examine and challenge the expertise of psychiatrists and psychologists. The sixth edition of this classic is contained in one volume for the first time, and is a professional 'must have' for attorneys.
